

Rebecca Oswald: My Time as an Intern

1. What was your first day at GS Group like?

My first day was a little daunting initially, walking into a working environment with people older than you is quite scary, but after a few hours I began to feel more comfortable with everyone as they're all really welcoming. It was also nice to see a couple of friendly faces that I already knew.

1. What are your responsibilities at the company?

I have a lot of jobs to do at GS Group which include doing the daily mail when it comes in and franking it before we send it off at the end of the day. I have also been binding booklets for the Health and Safety department as well as doing some filing for Financial Services. The main jobs I have had so far have been phoning different insurers and adding and closing claims on the system for the Claims department.

2. What have you learned from your experience so far?

I have learned to be more confident when talking to new people and to always remember to ask questions if I am ever unsure on anything, that way I will learn things quicker and easier. I have also learned what it's like to be in a working office environment.

3. Have you enjoyed working at GS Group?

I have really enjoyed my time here at GS Group so far. I was made to feel very welcome as everyone is friendly and I have been treated like a proper adult instead of a teenage girl like I would be if I was at school which I really liked.

4. What's next for you in the future? University/career plans etc.

So far, I have no plans for when I finish school next June. I don't really know what I want to do with my life but I'm hoping that I'll figure it out soon.
